

OVC Fitness & Rehabilitation Services

The OVC HSC Fitness and Rehabilitation Service is a pet-driven service for those who require expertise in the field of rehabilitative and sports medicine.

Potential patients include pets that require therapy for orthopedic conditions pre and post surgery, those with heart disease, neurological

disease, chronic pain, cancer and chronic joint, tendon or ligament injuries.

Patients with sports injuries and obese patients looking for weight loss solutions or increased fitness and strength training may also benefit.

These therapies can improve recovery time & overall health for our pets.
